

Miami Children's Hospital is one of the world's leaders in pediatric healthcare. The hospital draws children from all over the world, and is the only medical facility in South Florida that is dedicated exclusively to children. We offer hope to parents whose children have seemingly insurmountable problems. Miami Children's Hospital reaches out to secure the health of children in our community and throughout the world.

Renowned internationally, the hospital is a premier pediatric provider with expertise in all aspects of pediatric medicine. Highly acclaimed physicians representing more than 40 pediatric sub-specialties are located within the hospital's main campus, where they collaborate to provide comprehensive and innovative medical care to serve children with the most complex health challenges. It's no wonder that international dignitaries and heads of state choose Miami Children's Hospital for their own children's healthcare. We provide best-of-class, culturally sensitive care in a child and family friendly environment, emphasizing quality and competitive pricing.

Expert Care Coordination with a Comprehensive Team of Pediatric Care Experts

To ensure optimal care and ease of access for international children and their families, the hospital's Global Health Services department offers coordinated, comprehensive service. Your child will be under the direct care of a dedicated physician who is available around-the-clock to coordinate your child's medical needs with other caregivers, including the referring physicians. You will also benefit from the hospital's Medical Concierge Service, which will facilitate every aspect of your child's stay. The multilingual concierge staff offers expert care coordination that begins with the first contact and continues throughout the child's stay, follow-up care and the transition back home. Our goal is to offer care and support that fulfills each family's needs in a culturally sensitive manner.

Global Health Services offers:

- Around-the-clock access to our Global Health Services physician specialist, who will coordinate your child's plan of care with all other medical specialists
- Access to physicians in virtually every pediatric sub-specialty in one location. These specialists are available on the Miami Children's Hospital campus to collaborate in your child's care, as needed

World-Renowned Physicians and Programs

Whether a child requires specialized care, general pediatric medicine, a consultation or “second opinion” and /or the most sophisticated surgical procedures, Miami Children's offers a full complement of physicians who are highly trained and experienced in addressing the specific needs of children. The hospital's 650-member medical staff includes physicians representing virtually every pediatric subspecialty to help with highly specialized health concerns. In addition, several programs have been ranked among the best in the nation in 2008 and 2009 by *U.S. News & World Report* magazine — more than any other hospital in the region. Ranked programs include cardiology and cardiovascular surgery, neonatology, and neurology and neurosurgery.

Critical Care Transport

When specialized medical transport is needed to bring a critically ill or injured child for specialized care, Miami Children's Hospital offers LifeFlight® Critical Care Transport via helicopter or airplane. The LifeFlight® program is staffed by a dedicated critical care transport team, which coordinates the transport of critically ill or injured children from anywhere in the hemisphere to Miami Children's Hospital.

Language Services

As the gateway to the Americas, Miami has an international flavor that is welcoming to visitors from afar. Spanish, Portuguese, French, Italian, Russian and Arabic are among the many languages commonly spoken by Miami residents. We provide interpreter services and also are able to provide care and guidance with the assistance of our multilingual staff.

Comprehensive Specialized Treatment or General Medicine

For specialized treatment or the latest in pediatric research, at Miami Children's Hospital children benefit from the most experienced and devoted staff and the most sophisticated and advanced facilities.
